

Would you like an ethical, affordable and powerful global partnership?

Africa's Gift Ltd
Reg Charity No 1149830

Excite and inspire, whilst adding that international dimension to your students' learning, by engaging in the journey of a lifetime....

We can help you make this a reality, taking you step by step along the road, and helping you to embed principles of responsible action and volunteering, whilst enabling real life issues of sustainability to capture imaginations.

We will help you to analyse your needs, carefully matching your group with one of our vibrant and welcoming partner communities, and work with you to forge positive and mutually beneficial relationships with your African counterparts.

Our bespoke and fully escorted visits, are planned with extra team capacity in mind to support you in 'making a difference'. They (typically) include in-country orientation activities and reflection opportunities, as well as post placement relaxation, for example through witnessing the awe and wonder of Africa and its iconic wildlife on safari.

We also provide advice about fundraising, project development, and appropriate means of ensuring the future longevity of your partnership. We insist on the highest standards of risk management and safety in the field, and ensure that a qualified doctor accompanies all remote visits. Ask to see our full 'School Partnership Information' on 01709 717111
