

Summer Reading Challenge 2021

WILD WORLD HEROES

Presented by The Reading Agency.
Delivered in partnership with libraries.

Weekly Challenge 2

Monday 19 July – Sunday 25 July

Polar Bears and Climate Change

Polar bears are currently listed as **vulnerable** by the IUCN Red List of Threatened Species, which means they are facing a high risk of extinction in the wild. Climate change caused by human activity is the biggest threat to polar bears as the sea ice they call home is melting and reducing the area they can survive in and depleting food sources.

For your second challenge **REDUCE YOUR CARBON EMISSIONS** by having an **Energy Saving Week**. Use the [Energy Saving Challenge](#) worksheet to record your actions.

There are some great books about polar bears available from your local library including **'Boogie Bear'** by David Walliams by and **'The Last Bear'** by Hannah Gold.

Mini challenges will be issued each week featuring a different environmental theme on our [website](#) and social channels! If you would like more information, please contact the Environmental Education Team at Eco-Schools@leicester.gov.uk.
